

ADOPTION DRIVE ORGANISED BY WHITE ROOM STUDIO

It's the season of love and giving, so why not open your heart to a furry friend in need of a loving home? White Room Studio has organised an adoption drive together with Gentle Paws and Metta Cats. If you're looking for a furry companion, be sure to check out these adorable dogs and cats today—one of them might be your ideal companion!

GENTLE PAWS

Gentle Paws is a privately run shelter located at Pasir Ris Farmway. They house, rehabilitate and rehome canines, including strays, abused, abandoned or ex-breeding dogs. These loveable dogs are vaccinated, sterilised, microchipped, on heartworm, flea and tick prevention. They are not HDB approved.

DAK DAK DEI

2 y.o, Male, Husky Cross

A playful boy at heart, Dak Dak Dei loves running, swimming, jumping over hurdles and he even knows commands and tricks! He may engage in rough play at times, but with lots of love and training, he will be a good mannered companion.

DONNA

2 1/2 y.o, Female, Local breed

Donna is a lovely girl who may be a little timid, but if you get to know her, you'll realise she is playful and loves attention. With a high level of intelligence, this beauty has gone through training so she has a good grasp of basic commands and is toilet trained. She'll earn her treats by fetching them!

WAGGY

3+ y.o, Female, Local breed

Although pretty Waggy is a little shy, she has a good temperament and gets along well with other dogs. She enjoys her treats, being petted and may jump to greet you if she is familiar with you. This intelligent girl can also pick up bowls and is trained to do her business outdoors.

DRIBBLE

3 y.o, Male, Local breed

Dribble is a friendly dog who loves attention and will cuddle with you. However, he only does well with female dogs. He is a bundle of energy and loves to go on walks where he can explore, but can be mischievous. Training Dribble will be a breeze as he understands basic commands.

OSCAR

4 y.o, Male, Local breed

While Oscar is the alpha male and isn't afraid of dogs bigger than him, he needs a little time to warm up to strangers. Beneath this tough exterior lies an affectionate canine who prefers lazing instead of playing, but will still need to be walked daily.

DRIZZLE

8 m.o, Female, Local breed

Drizzle behaves well beyond her tender age of 8 months. She appreciates going for walks and swimming. A sweet-natured puppy, she is affectionate and can get along with dogs and children. She loves lazing on the couch and bed when she's home. While she isn't toilet trained, she will pick it up quickly when taught.

For more information on Gentle Paws' adoption procedure, visit gentlepaws2010.blogspot.com

METTA CATS

Metta Cats is a volunteer-run shelter that looks after and rehomes stray cats. "Metta" means loving kindness in the Pali language and this is what the volunteers strive to offer to these felines under their care. For more information, visit www.mettacats.org.

KOPI SU

9 m.o, Male

At just 9 months old, Kopi Su exhibits an unusual behaviour—he looks out for his sick feline friends. He loves indulging in eggs as well. This kitty is also in the pink of health as he has been vaccinated and neutered.

QUARTZ

3 m.o, Male

Quartz is a sprightly kitten who is rather adventurous as he likes escaping, hence it is recommended that he stay indoors. He will also require a watchful eye and a firm hand. This brave boy does not get into scruffles with other cats when he encounters. He has already been vaccinated.

KOPI-O

7 m.o, Male

Kopi-O is full of energy and can play all day! He loves attention and will do well with lots of mental and physical stimulation as he loves pouncing on anything that interests him. This healthy kitten has been vaccinated and neutered.

OREO

3 y.o, Male

Oreo is one curious kitty who gets along well with humans and other cats, making him the perfect feline companion. He has been neutered.

PUMPKIN

6 m.o, Male

A timid kitten, Pumpkin shies away from humans. It's best if he is adopted together with his brother, Biskit. A little patience will go a long way when interacting with Pumpkin, so that he can build up his confidence.

BISKIT (RIGHT)

6 m.o, Male

Biskit has had an awful past where his paws were crushed by crates and his hind leg injured. He has since recovered and can walk perfectly now. More timid than his brother, Pumpkin, this kitten is active and loves pouncing and licking. Love and affection are all he needs to blossom into the frisky cat that he is.

For more information on Metta Cats' adoption procedure, visit www.adoptarescuedcat.blogspot.com/2011/06/must-read-for-potential-adopters_09.html

GENERAL ADOPTION PROCEDURE

- Potential adopters may be screened.
- Volunteers may conduct a visit to assess if your home is suitable.
- Adopters have to sign an adoption agreement.
- There may be post-adoption visits.

White Room Studio is located on the entire second floor of a River Valley shophouse, which is full of nostalgic character and big tall windows. This means, not only can photographers Dan and Elaine shoot with studio lighting, they also make use of the bright natural lighting and interiors, thus giving a wide spectrum of lighting, atmosphere and emotion to play with.

Dan and Elaine are probably the most easy going photographers you'll ever meet! Everyone is encouraged to have fun and interact with each other whilst they capture what is real and emotional.

Be it a comfortable studio shoot, run in a park, at the beach or at your residence, White Room Studio provides the best photographic experience you'll ever have with your beloved pets.
