MEMORIES TO LAST *Forever*

In the blink of an eye, your little one's pitter-pattering feet are stepping out into the world. So, freeze these precious moments in time with photographs that last forever!

The team at White Room Studio will let your imagination run wild to capture family fun and laughter, from blowing bubbles to smashing cakes! Inside their shophouse studio, it's all about letting kids simply be themselves. From newborns to teens, the experienced photographers have a natural affinity for building trust and ensuring your kids feel safe playing within the naturally lit 2,400-square-foot studio. And for parents, there's a brand new guest lounge offering a space to recharge with snacks for the whole family.

Having photographed more than 10,000 families, the team is ready to capture your kids' unique personalities. Using different settings and props, they'll help make your little ones smiling eyes and happy giggles memories to last forever.

A word from a client

White Room Studio was absolutely brilliant for our newborn photo shoot with our daughter. This is our second newborn photoshoot with them and both times they have not disappointed. The team was incredibly professional, kind and fun, making sure we enjoyed the session. They clearly had excellent experience with newborns and the props and sets were great.

We viewed the photos today and were so pleased and impressed – photographer Justin did such a fantastic job; we can't wait to put the photos up at home next to our son's newborn shoot. We highly recommend White Room Studio and thank them for capturing this special family moment.
